

# Ingersoll District Nature Club & Ingersoll Public Library present **2023 Nature Notes**

*Featuring short interactive nature lectures on topics of local interest*

## *Hodge's Pond Restoration 2.0*

Join local naturalist Phil Holst as he explains the second phase of restoration of this 400-acre conservation project. Come hear how Phil's leadership and continuing reclamation of Hodges' Pond has worked its magic, returning the space to an ecologically functioning wetland and an investment in the future of the Thames River watershed and beyond. This work leaves a lasting legacy for generations to come and was made possible through a partnership amongst Future Oxford, Stewardship Oxford, Ducks Unlimited, MNR, UTRCA and the Cowan Foundation.

**Wednesday, April 19 @ 7:00-8:00 p.m.**  
**Ingersoll Public Library, Meeting Room**
